**NOTICE OF TEMPORARY CHANGE TO GOVERNMENT MEETING LOCATIONS**

ARROYO GRANDE, CALIFORNIA – On August 9, 2016, the Arroyo Grande City Council approved the City Council Chambers Accessibility Improvement and Audio, Video and Sound System project. The project will construct accessible restroom facilities to meet current Americans with Disabilities Act (ADA) requirements, as well as provide upgrades to the audio, video and sound system equipment in the City Council Chambers.

Construction at the Council Chambers is scheduled to begin on September 6, 2016. As a result, all government meetings will be relocated to alternate locations. Public notice regarding meeting location changes for the City Council, Planning Commission, Traffic Commission, and Parks & Recreation Commission has been posted at the Council Chambers, City Hall, and on the City's website, and will be listed on meeting agendas.

AGP Video will continue to stream the City Council and Planning Commission meetings live on the internet via the City's website at [www.arroyogrande.org](http://www.arroyogrande.org) and the SLO-Span website at [www.slo-span.org](http://www.slo-span.org). Due to construction that will be occurring at the Council Chambers building, the meetings will not be televised live on Local Government Channel 20; however, they will continue to be rebroadcast three times daily on Channel 20 for one week following the meeting. City Council and Planning Commission meeting videos are archived and available on the City of Arroyo Grande and SLO-Span websites for viewing 24 hours a day/7 days a week. It should be noted that during construction of the project in the Council Chambers, Channel 20 may experience intermittent short-term outages. Those outages will be minimized as much as possible.

The schedule of temporary meeting location changes is reflected on the following page:
