Assistant Planner Perez presented the staff report and gave a brief background of property, the existing development, and the scope of the proposed project.

Don Love, project representative, spoke in support of the project, presented the color and materials board, and responded to questions about the effectiveness of the light fixtures in

preventing light pollution, finish material on the proposed fencing, the design of the chimney, and proposed landscaping.

The Committee spoke in support of the project, commenting that the proposed revitalization of the existing residence is appreciated, and will be an improvement for the neighborhood. The Committee also spoke in favor of the color palette, continuation of siding material usage, and the scale of the additions. The Committee expressed concern with light pollution from the proposed light fixtures, and framing the chimney with wood rather than brick.

Vice Chair Berlin made a motion, seconded by Committee Member Hertel, to recommend approval of the project to the Community Development Director with the following conditions:

1. The proposed perimeter fencing shall have a matte finish,
2. The chimney shall maintain a brick exterior, of brick veneer, with preference being the reuse of the existing brick,
3. Treat the glass panes of the light fixtures to dim the light and prevent light pollution.

8.b. CONSIDERATION OF ADMINISTRATIVE SIGN PERMIT 18-010; REVISION TO EXISTING PLANNED SIGN PROGRAM; LOCATION – INTERSECTION OF EAST GRAND AVENUE AND SOUTH ELM STREET; APPLICANT – JENNIFER DAW (Perez)

Assistant Planner Perez presented the staff report, summarized the changes proposed to the existing sign program, and answered questions about the pending alterations to the north elevation, wording changes proposed, and whether any existing commercial buildings on E. Grand Avenue have signs that do not face the street.

The Committee spoke in support of the project because it may facilitate the leasing of the tenant spaces, but was concerned that the signs on the east and west elevation that are non-street facing may be precedent setting. The Committee also expressed concern that a sign on the western elevation of the building would be a nuisance to the multi-family residential developments to the west of the project site.

Committee Member Hertel made a motion, seconded by Vice Chair Berlin, to recommend approval of the project to the Community Development Director with the following conditions:

1. Each instance a wall sign on the west elevation of Building Pad C is proposed, review by The Committee for placement and design is required,
2. The wording changes discussed by the Committee are incorporated into the existing Planned Sign Program.
